

Regarding the objection in paragraph 20, if the Examiner will point out where in the vans of "Figs. 5-7" "bulkhead sections" are found, Applicants will add such to the drawings. Insofar as Applicants are aware, vans do not have bulkheads, only truck beds have such. Thus, this objection should be withdrawn.

Conclusion

In view of the amendments to the claims and the foregoing comments, it is submitted that each objection or rejection has been overcome, and that this application is in condition for allowance on Claims 1-5, 7, 10-12, 14, 24-28 and 30-48. An early indication of such allowance is solicited.

Date: 9-13-99

Respectfully submitted,
